Sony! Your version is not supported.&echo. .halt pauseStep 2: Save the document with an extension bat, such as Win7.bat, and then save the file. Step 3: Right click the batch file saved and run it as an administrator. After clicking it, windows 7 will start to activate. Step 4: If Windows 7 is successfully activated, you will be prompted to restart your computer. Then, at a command prompt, type Y, and your Windows 7 will be activated successfully. Last words, so that's it. Here are some methods to help you activate any Windows OS such as Windows 10, Windows 8 and Windows 7 if you still need help with anything at all, do not let us know in the comments section below and we can get back to you with a solution as soon as possible. How to Watch Hotstar Videos in the USA? How to get free Steam Wallet codes? Codes?
